It finally exists!

We, Team DARK, now present to you all:

DARKCORP v1.1!

What is it?

It's a complete software modification for your Nintendo Wii to
allow you to play almost all of your in-region backup burnt Wii
and GameCube games via the disc channel without opening your
console or having to use a loader application.

What's in it?

Main:

IOS80 = IOS60 v6174 with rev13 DIP + ES_Identify Patch

All IOS have the RSA signature check removed.

All IOS, except for 28, 33, 35, 36, and 38, have full Korean
Game support.

All IOS have their version number maxed out to prevent being
overwritten by an Official Nintendo Wii System Update (although we do
not recommend performing a Wii System Update anyway).

DARKCORP v1.0 does not modify IOSes 4, 10, 12, 13, 14, 15, 22, 31, 34,
51, or 61.
