About This Content

A famous name from the 1940s comes to FSX: Steam Edition! The Hawker Hurricane lost out somewhat in the fame stakes to the much more renowned Spitfire, but the reality is that Hurricanes proved more effective than Spitfires in the Battle of Britain. It was a more robust aircraft, and its fabric-over-frame construction meant that it was cheaper and quicker to build and repair than the Spitfire with its monocoque all-metal construction. The prototype first flew on the 6th November, 1935, and the aircraft was steadily improved and altered to eventual production standard.

Developed by Just Flight, Battle of Britain Hurricane add-on for FSX: Steam Edition includes three versions of this remarkable aircraft, from the Prototype through the early Mk1 two-bladed Rotol propeller version to the Mk1's more refined three-bladed propeller type. With an incredibly detailed cockpit, several model variations, exacting flight dynamics, realistic engine sounds and top quality paint schemes, the Hurricane makes an ideal stablemate for its famous sister, the Supermarine Spitfire (also available in the FSX: Steam Edition store).

Features:

- Highly detailed exterior models
- High quality interactive 3D Virtual Cockpit
- Realistic sounds
- Canopy jettison feature

-
- 11 authentic liveries
 - Animated pilot figure
 - Detailed Merlin engine visible
 - Numerous animations
 - High fidelity flight model
 - Detailed manual
 - Engine start and gun effects
 - Multiple viewpoints
 - Opening inspection hatches and a fully detailed exterior cockpit
 - Removable features include fuel tank cover, inspection panel on starboard side and gun hatches on wing

Includes Hawker Hurricane Mk1 'Battle of France' period model with wooden two-bladed propeller, ring-and-bead gun sight, fabric wings as well as Hawker Hurricane Mk1 'Battle of Britain' period model

Interior models recreating early Hurricane with ring-and-bead gun sight as well as Mk1 production cockpit with reflector gunsight

- Exterior models built following the most accurate plans available, to achieve highly accurate profiles and shapes
- Features modelled fabric over stringer rear fuselage
- Specular and bump mapped where appropriate
- Engine start battery trolley
- Virtual cockpits completely modelled to portray the real cockpit in full detail
- Every switch, knob and lever works, most with bespoke animation code
- Shadow textured where appropriate
- Animations include sliding canopy, animated pilot figure, canopy jettison feature, undercarriage, movable radiator flap, retracting foot step and hand grabs, flaps, rudder, elevators, ailerons and trim tabs
- Fuel tank cover can be removed to reveal tank, supply pipes and fittings
- Inspection panel on starboard side can be removed to reveal cockpit detail
- Gun hatches on wing can be removed to reveal Browning machine guns, ammunition feeders and fully modelled shells
- Special effects include engine start smoke effect and gun firing effects and sounds
- Highly detailed texture mapping without compromising frame rates

-
- Layered paint kit included to help create your own liveries (suitable additional paint program such as Photoshop required)

Title: FSX Steam Edition: Battle of Britain Hurricane Add-On

Genre: Simulation

Developer:

Just Flight

Publisher:

Dovetail Games - Flight

Release Date: 3 Feb, 2017

b4d347fde0

English

The only thing it got going for it was the multiplayer, which is dead. However, if you still eager to play the single player for whatever reason. Here is a brief review

What I like most about this game is the plethora of weapons and vehicles. You can use almost anything and it works most of the time. However the problem in single player is that, the story is boring like a edgy WW fanfict. The single player is just to introduce you to the weapon selections which are available for the multiplayer. What sucks more is that you have limited lives. Whereas the enemy is basically unlimited, this works in multiplayer, but suck balls in single player as you can never be a sniper in which you will always have to be the assault leader.

This was a good game by it's time and still is as a multiplayer game. The single player experience is really bad. I wouldn't recommend getting it. Reflex game but has serious bug about it... Nonsense achievement every second.. Dont ever try it.. honestly, better than arma 3. Played my first online match last night and while turning off all comfort settings might be inadvisable (a little motion sick) it was SOOOO MUCH FUN! Great implementation of VR and skill based to boot! Also it is crossplay with PSVR (my opponent was on playstation). Should become one of the staples of my library once I get in a little more practice ;). Game is fantastic, but the play area is FAR bigger than what you likely have in real life. I have a 3mx3m or MORE space and it still so easy to hit the wall and break a controller. You're left standing in the middle of the room waiting for the guys to lunge at you before you can attack. It's very frustrating because you really want to advance on your enemy, but you'll hit the wall if you do that.. Hit boxes are also a little bit off, it seems.

Huge potential, but unless the developer makes the game area smaller, I just cannot recommend this game.. I have no idea how this game gets good reviews. It is a horrible text based rng nightmare of boredom.. I DONT KNOW HOW TO FEEL ABOUT THIS GAME.

it is certainly a challenge but sometimes it is because it is bit drifty, as in the physics arent quite right. it would also be good if the soundtrack was random songs from ncs.

apart from that the game is beautiful and it is nice to look at. also, it went from 0 to 100 real quick and all of a sudden i was jumping over multiple sharks and had to time stuff, appart from the level before how you just had to jump over a gap and that was it. Sorry I thought I was paying for shampoo she's using... Cause that \u2665\u2665\u2665\u2665\u2665 doing wonders for her!. Jogue somente se tu tiver bastante paciência e tempo. Tem vários objetivos mas nao é para mim.. Imperium Romanum feels like a worthy successor to the classic "Caesar" series. Fans of that series will appreciate this title. Thumbs up.

If you have played iBomber games before than you know what you can expect from the graphics side of things. The gameplay is a lot different however. You're not the blowing up things as in a tower defense game, but you're now in the driverseat. The game has some depth that you will be able to upgrade you're tank. For the rest it's making sure you hit the enemy with you gun. Wouldn't put this game at the top of my shopping list, but it definetly offers some simple good old fun.. This is a solid song pack. One of these requires a capo (In My Place?) and the songs are mostly standard tunings. I agree with the other reviewer that most of these songs are not too hard. What's pretty cool about these is that the lead guitar part actually is mostly based on Chris Martins vocals. So you like sing duets with the guitar which is pretty cool.. this game has always online drm. \u2665\u2665\u2665\u2665 that. fun game but consumer unfriendly and it is not disclosed anywhere on the game page. Not educational. The physics aren't realistic, and often don't make any sense. The English "narration" has bad grammar and is dull. There is no music. The interface isn't reliable, students often have trouble selecting items.

If you want fun and cute find Contraption Maker. If you want something a bit more difficult than that for older students look for the Crazy Machine series.. This game is a great adventure that, while takes a short time, is really well written and a well developed game. 11/10 but want more episodes. Rlght now I think it needs a lot of work but I do see great potential in it. I will come back to it when its out of early access and change my review then. Good beginning game play but eather the mid to late game needs more ironing out or its difficalty curb is way to high. Not sure withch. Also for the time being perhaps its only a party Hard skined tycoon game. Haven't had the killer show up to any of my parties yet. Loved this game more if some bastard hadn't spoiled the plot twist, but the atmosphere and ending alone was great. One of the best games of all time =D. The sad fact is that Super Rude Bear Resurrection is a criminally overlooked little gem of a game. It has tight controls, exellent level design and good graphics. Anybody who likes games like Super meat boy will most likely like this game as well.
